About advanced conflict management coaching

Advanced Conflict Management Coaching is a process in which a trained coach supports and helps an individual to address their specific conflict triggers, develop more constructive responses and improve their conflict behaviours.

Building on skills learned in the 4-day Conflict Management Coaching (dispute specific) course, which is a pre-requisite, the focus is on empowering individuals, including self, to develop and improve conflict competence.

Your facilitator

Lynora Brooke has used the CINERGY® model of conflict management coaching since training with Cinnie Noble in 2005 and has trained others in its use since 2007. Lynora finds it an invaluable tool to assist individuals to develop and enhance their own conflict competency, to manage interpersonal and workplace conflict and prepare for, or debrief after, difficult conversations, investigations, negotiations or mediation. With a focus on leadership development and conflict management, Lynora has her own consultancy, Redefinity, specialising in leadership coaching and mentoring, workplace and commercial mediation, team dynamics assessments and conflict coaching. She also facilitates the 4-day Conflict Management Coaching foundation course and the 2-day in-house workshop, Leader as Workplace Coach for Resolution Institute.
