

# Spotlight on practice

Resolution Institute | Conference 2018

More than 120 delegates from New Zealand and Australia participated in *Spotlight on practice*. The conference promised a somewhat format by offering a range of longer interactive workshop sessions focused on dispute resolution practice, as well as opportunities to engage in professional conversation and exchange insights with colleagues.

This structure was adopted enthusiastically and reflected in delegates' comments about what they most valued at the event:

*"The sessions being so interactive. It really helped me meet people. The content was also excellent."*

*"Networking, the longer sessions - 1.30hr and no plenary sessions - straight into the real business of practice."*

*"The interactive/workshop focus - opportunity to think about how to apply what I'd learnt to my own practice. The networking/catch up opportunities"*

Another programme highlight was the moving stories shared at the closing session by three delegates about their 'journey' to be involved with DR practice:
